### THE ANAM ELEPHANT.

The French have made a serious mistake in their Tonquin policy is fast becoming apparent. They have conquered the non-combatant Anamese, but silently the hosts of the stronger country of China are sweeping down upon them, and their numbers can no more be computed than can invasion of locusts. Then the truth is, the French are acting in bad faith and making the war one purely of conquest. In 1876 they drafted a treaty, fully acknowledging the sovereignty of China over Anam, and it was in the most solemn manner ratified. Now they have thrown off the mask entirely and assert that China has no rights there which Frenchmen are bound to respect. The French fleets are cruising around the Chinese waters and threatening to bombard seaports hundreds of miles away from the Gulf of Tonquin, but that does not stop the pressing southward of the Chinese armies. The Chinese are officered by foreigners; they fight in battery first-rate; they have some ugly forts along their coasts and a better navy than most people think. Moreover, France is liable to become involved with more than one outside nation if she continues her present plans. English interests are in every port, and John Bull looks carefully after the welfare of his merchants, for it is by trade that he maintains himself.

The gravity of the situation is fully felt in Paris. A French defeat was covered up the other day, but it was by the advance corps of the Chinese army. In Anam France has drawn a mighty troublesome elephant in a raffie.

A Stringent Order.

Consequent upon the case of Maria Nicolas, the Hawaiian leper brought here on the steamer City of New York, the Board of Supervisors adopted a resolution providing that every person afflicted with leprosy shall not be permitted to land, and that the failure of captains of vessels to report leperous cases to the quarantine officers, shall be punishable by fine of from \$500 to \$1,000 and imprisonment. The leper, Marie Nicolas, has been removed to the pest-house, where she will remain at the city's expense until she desires to leave the State.

### Important Decisions.

SAN FRANCISCO, September 17. In a series of ten cases brought against the Central Pacific Railroad Company by several counties in the State, Justice Field of the Supreme Court, rendered a decision to-day that under the new State Constitution, railroad companies shall only be taxed on the value of their property after deducting the amount for which it is mortgaged. The cases have attracted much attention, both as regards the interpretation of the law and the large amount involved. In another case involving the right of the Railroad Commissioners to regulate the fares and freights of steamers and other vessels hailing from California ports, Judge Field decided that all sea-going vessels were under the control of the United States, and outside of the control of individual State governments.

Project Abandoned.

PORTLAND, Ore., Sept. 18. In a long letter to the Secretary of the Chamber of Commerce at Astoria, President Villard stated that the companies he represents cannot undertake the construction of a railroad from Portland to Astoria; he therefore announced that the project will be abandoned. This announcement will be a severe blow to the hopes of Astoria.

### EASTERN DISPATCHES.

The Wall Street Stock Market was, in the main, a little stronger yesterday.

The owner of the Eastern trotter, Jay Eye See, has refused \$86,000 for him.

It is rumored that the Czar of Russia and Emperor William will soon have a conference.

The expected meeting of Gladstone with the Czar is regarded in Berlin as of the highest importance.

Mint Director Burghard thinks there will be more silver and less gold produced this year than in 1862.

The first through freight, consisting of ten cars of canned corn, started yesterday from Portland, Maine, to Portland, Oregon.

Two Egyptians who were convicted of being engaged in the massacre at Alexandria after the evacuation by Arab Pascha, were hanged yesterday.

By the wreck of the bark Briton near Cable Island, the Captain's wife and four children, and nearly all the crew were lost, the captain and three men being the only ones saved.

The Socialists made the opening of Parliament at the Hague, yesterday, the occasion for a political demonstration; placards favoring universal suffrage were posted along the route of the royal cortage.

O'Donnell, the slayer of James Carey, seems to be afraid the London police will identify him as having been concerned in other irregularities. He is said to be possessed of piercing black eyes and an Irish cast of countenance.

The Cape Government will send an ultimatum to Cetewayo, requiring him to surrender himself and followers within ten days, and if he fails to do so troops will be sent to arrest him.

#### SAN FRANCISCO NEWS.

The California Prison Directors.

SAN FRANCISCO, September 18.

The Republican State Prison Directors just removed from office by Governor Stoneman, have addressed a four column open letter to the Governor, in which they say: "We are astonished at the cowardly innuendoes and malicious falsehoods your decision contains. We use plain but forcible expressions, so as not to be misunderstood." The concluding portion of the letter reads:—"It is evident that the time had arrived in the history of your party for indiscriminate removal, and that the party found in you a weak executive. You sir, was elected by the votes of over 16,000 Republicans, who believed that you possessed sufficient moral backbone to rise above the demands of unscrupulous politicians.

The Fever at Guaymas.

H. Berhardt, a Guaymas merchant who had arrived here, in speaking of the fever now raging on the Mexican coast, says the worst is over; that the fever has expended its force, and that when the October rains set in the causes of the disease will be dissipated.

Another merchant, however, also from Guaymas, but who does not wish his name mentioned, says that the telegrams have so far only conveyed a faint idea of the terrible ravages of the fever in that city.

#### HALL'S VEGITABLE SICILIAN Hair Renewer.

LONDON, September 18.

It has transpired that O'Donnell, after the shooting of Carey, said, "Shake hands, Mr. Carey, I had to do it," not, "I did not do it," as first reported. It is understood that Mrs. Carey has evidence of a most astonishing nature, which she declares will clear her husband's character. She has handed the letters to the authorities, which include the correspondence of a Member of Parliament.

LONDON, Sept. 18.

The train with O'Donnell arrived safely. Extraordinary precautions were taken to guard him; he was at once driven to Millbank and placed in a cell; subsequently the prisoner was taken to Bow street and charged with murder upon the high seas. At the request of counsel for the crown, the prisoner was remanded for a week to await the arrival of witnesses.

Vienna, September 17.

It is said the Porte has instructed the Turkish Ambassador at Berlin to sound the German Government respecting a Turco-German alliance; Turkey, in the event of war between Germany and France, undertaking to make diversions upon the French in Tunis and Algeria.

## NOTICES.

Five cars of emigrants went west this morning; F. Weber has an important notice in 50 cent column.

Half a crop of hay is about the average in Long Valley.

Game is not so plentiful this year as it was last, north of Reno.

Beer—St. Louis and Beale—at Chase & Thyes, at 25 cents a bottle.

Eight bars of bullion of the southern country went below per Wells Fargo to-day.

The wagon road between Reno and Long Valley is rather rough, and teamsters are complaining.

Full line of Sheldon's Readers at Nasby's, 27 Commercial Row, Thermometer at 75°, 9, 11, 13, 15, 17, 19, 21.

The Washoe Mill and Lumber Co. have a large lot of dry slab wood for sale; also the finest kind of split and limb wood.

Eighteen cars of beef cattle, shipped from Winnemucca by Col. Hardin, W. B. Tidmarsh and Stopher, passed west to-day.

The most effective remedy for colds and coughs ever discovered is the comp. syrup of tony and spruce gum for sale by R. E. Queen.

Steve Connor, the Reno nursery man, is cutting and curing a large quantity of tufts to be used in shipping young fruit trees in next Spring.

There is some satisfaction in personalizing house like Chase & Thyes, for they mix your punch and take your money so pleasantly and good-naturedly that it makes you feel as though they were treating.

Coroner Dickens and Dr. Dawson went to Wadsworth to-day to investigate the cause of the death of a tramp, who tried to get away with 11 full glasses of Wadsworth lighting yesterday, from the effects of which he died.

This community has long felt the need of such a firm as A. Lindley & Co., as there is nothing that a farmer produces, except children, that he will not take at a good price in exchange for groceries. They are certainly deserving of a most liberal patronage.

The largest and most complete stock of stoves and ranges ever brought to this State can be seen at the store of Knowles & Bainbridge on Commercial Row. A Westlake range will do more towards keeping a family together than a new Winter hat or a seal-skin aqua.

The barley used by George Becker in the manufacture of lager beer at the Pacific Brewery is the very best to be had in the market. He uses no "pinched" or inferior grain, which he refuses to buy at any price, and the result is an article of malt liquor that is entirely pure.

The success of the Palace Hotel shows what close attention to business and fair treatment of the traveling publican accomplish. The accommodations of this popular resort are second to none in the State, and their prices so low that it is cheaper to stop at the Palace than to camp out.

These cool evenings and mornings will remind the ladies that they will soon need little heavier clothing than has been worn during the heat of the Summer, and if they will call at the stores of F. Levy & Bro., on Virginia street, and cannot find what they want, there is no use of looking anywhere else.

## DISTRICT COURT.

## The Liability of Stockholders in the Reno Savings Bank.

This morning Judge Boardman rendered the following decision in the case of William Thompson vs. the Reno Savings Bank and M. G. Lake, submitted last May. The suit was brought by Thompson on his own behalf and on behalf of all other creditors of the bank who wished to come in and contribute to the expense of the litigation, to compel the defendant (Lake) to pay his subscription due to the Bank.

The Court finds that Lake was a subscriber to the stock of the Bank to the amount of \$25,000; that he came into the Bank the sum of \$7,500, and that he is liable to the Bank in the sum of \$17,500, being the balance of his subscription and to account therefore to the creditors of the Bank in this action to be distributed pro rata among them. That he has received certain trust funds—securities belonging to the Bank—for which he must account to the plaintiff, to be distributed to the creditors of the Bank. Counsel for the plaintiff were ordered to prepare the findings and decree, in accordance with the views expressed by the Court. Judge Boardman was one hour in making the decision, which, by its clearness and logic, showed that he had expended considerable thought and study on the case. The unfortunate creditors of the defunct Bank are, in a measure, happy.

In the case of the State vs. Ed. Wells and J. A. Peterson, for house-breaking into Court this morning, when they withdrew their plea of not guilty and pleaded guilty to the above offense, and will receive sentence next Friday at 10 o'clock.

## NEVADA VS. CALIFORNIA.

The Inter-State Shooting Match Won by Three Points by the Nebrascans.

The long-talked of inter-State match for the Pacific Slope Bronze Trophy began yesterday at 11 o'clock at the Carson Guard 200-yard range. The attendance was very large, nearly all the towns in Western Nevada being largely represented. Betting was largely in favor of the Nevada team. Burn of the Golden State team and Col. Lord of the Comstock were called to the score list and opened the contest. The following is the score at the 200-yard and 500-yard ranges:

## SACRA VALLEY ITEMS.

Items Cleaned from this Week's "Leader."

Sam'l Davis has the finest oats cut this year, averaging 50 bushels to the acre and weighing 45 pounds to the bushel. They are what are called "Poland oats."

Last Saturday as M. Dean was loading lumber at McNa's sawmill, he fell from a lumber truck and fractured two ribs. The injuries are painful but not serious.

Charley Trimble and Hector Marable recently took a wagon load of rabbits and sage hens to Johnsville, where they found a ready sale at two bits a piece. No trouble at all to get a wagon load or two of this kind of game in this valley.

D. B. Patterson of Loyaltown harvested nearly 4,000 bushels of grain from 50 acres. The crop would have reached that amount, but for Keyes' sheep, which destroyed a portion by climbing over the fence and eating the heads off the young plants.

A prominent Sierra county citizen, while attending the Conclave in San Francisco: beat himself to a barber shop to get shaved. After the work was about completed the following dialogue is reported:

"Barber—"Bay rum, sir?"

"Citizen—"Don't care if I do. Put a little gum in it though, please. Judas, I didn't know before that you fellows threw in a free drink with a shave."

This valley, being a little out of the way, has been behind the times in beholding a good specimen of the dude, until yesterday. He came down on us as softly as a Summer zephyr, and we didn't touch it, for fear it would break. On his head he wore a low-crowned straw hat with immense brim. He wore a black broadcloth suit, coat cut in Prince Albert style, with only the lower button fastened, showing a wide expanse of shirt front upon which nestled three tiny diamonds (we guess). He carried a light cane which he nursed carefully. Being young and frail he took a hemmed colored with raspberry syrup, which made him intoxicated in an instant. Whence he comes or whether he goeth we know not, nor do we care.

W. Nichols and Jake Lewis drove into Wadsworth Wednesday after a 1600 mile trip through Northern Nevada, Eastern Oregon, Washington and Idaho Territories. They left Wadsworth July 23d, and went by Surprise Valley, Warner Valley, Ft. Harvey, Malheur, Baker City, Grand Round, over the Big Mountain, thence to Walla Walla, thence by the Big Bend of Snake River and Winnemucca. The best country they saw was 16 or 18 sections of fine land between the Columbia and the Yakima, in the vicinity of Traverse, Webber, Bob Jordan and other old Renosites.
